## Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

I've spent the last 20 years working with students across the globe, from Europe to Asia, helping them succeed in IB Psychology and other psychology-related courses. My students consistently perform at the highest levels, with many scoring top marks in their IB Psychology exams and securing admissions to prestigious universities. My background as an IB examiner and Extended Essay supervisor has given me a deep understanding of what it takes to excel in the IB curriculum.

In addition to IB, I've supported students in A-Level and GCSE Psychology, offering personalised tutoring to ensure they understand the core concepts and are fully prepared for their exams. I've worked closely with students on Internal Assessments, helping them meet the criteria necessary for success.

My approach is rooted in years of experience as a clinical psychologist, which allows me to bring real-world applications to the subject. I've taught students with a range of abilities and learning styles, ensuring each student gets the tailored support they need to achieve their academic goals.
