 **Qualified Teacher | Seoul National University | BSc in Environmental Science**

I earned a BSc in Environmental Science from Seoul National University and have 4 years of teaching IB Environmental Systems and Societies (ESS). My focus is on helping students succeed in their exams, and I also teach GCSE and IGCSE Sciences.

**Teaches:** IB ESS A-Level Environmental Science IGCSE Science GCSE Biology

**Curriculum:** IB A-Level GCSE IGCSE

## Qualifications

**Seoul National University:** BSc in Environmental Science (2016–2020)

**Korea University:** MSc in Environmental Science (2020–2022)

## Vetted Tutor

### Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

I have spent the last four years teaching IB ESS and other science subjects, helping students build a strong foundation in environmental studies. My experience ranges from guiding high school students through their IB internal assessments to helping them excel in final exams. I have worked with students from diverse academic backgrounds, providing personalised tutoring to ensure they reach their full potential.

In addition to IB ESS, I've also taught GCSE and IGCSE sciences, assisting students in improving their understanding of key concepts in biology and environmental science. My teaching experience spans both one-on-one sessions and small group classes, with each session tailored to meet the specific needs of my students.

My passion for environmental systems and societies has driven me to continuously improve my teaching methods, ensuring that my students develop not only a solid academic background but also an appreciation for the subject's real-world applications. My students have consistently achieved high grades, with many pursuing further studies in environmental science.
